Encamped on Merced's Banks In a Grove of Pines and Firs.

SLEPT IN A SNOW STORM.

"I Passed One of the Most Pleasant Nights of My Life" - Heaches Raymond Today.

Yosemite, Cal., May 17 .- President Roosevelt, John Muir and Rangers Leidig and Leonard are encamped in the Bridal Veil meadows tonight near the banks of the Merced in a grove of pines and firs; almost within the spray of the beautiful Bridal Veil falls. The chief executive is resting after one of the most memorable days of his life.

At 3 o'clock this afternoon the party arrived from the Vernal falls at the Happy Isles. Although the party had been hovering above the Yosemite since early morning, first at the heights of Glacier Point, then above the great panorama wall near the Vernal falls and later at the Nevada and Vernal falls, yet this was their first entrance to the floor of the valley. There were but few there to meet him because his point of entrance was not known to any one, not even to the members of his party. He spoke kindly to those there and then came down the valley via Camp Curry and to the Sentinel hotel Shortly before 4 o'clock the party was seen approaching the Sentinel hotel. A few moments later they had arrived at the hotel and were greeted by President Wheeler and others.

The president alighted and for a few minutes he spoke pleasantly to a few members of his party.
'We were in a showstorm last night

and it was just what I wanted," said he, smiling. The president was dressed he, smiling. The president was dressed in a khaki suit, army hat and around his neck was a dusty looking handker-chief much the worse for wear.

In a few minutes he mounted his horse and with John Muir and President Wheeler proceeded to the Jorgen-sen studio 200 feet up the river, where the party was joined by Mr. Jorgensen. This building has the honor of being the only one he was in while here. They remained here over a half hour and here the president expressed himself fully about the Yosemite and the Si-

A lunch was awaiting him and, though his appetite was keen, he refused to eat, having in mind the camp meal at the Bridal Veil meadows. However, he joined the party in a glass of

"This is the one day of my life," said he. "and one that I will always remem-ber with pleasure. Just think of where I was last night. Up there," pointing toward Glacier Point, "amid the pines and silver firs, in the Slerran solitude, in a snowstorm, too, and without a tent, I passed one of the most pleasant nights of my life. It was so reviving to e so close to nature in this magnificent forest of yours."

His host conducted the party through the rooms of this studio, the president remarking, "Had I not wanted the complete rest that I have had, it would nave been one of the greatest pleasures of my life to have spent the time in this building."

When shown the dining hall with its beautiful Dutch finish and furniture, his eyes fairly glistened and he said: "You know I am Dutch myself."

When Mr. Roosevelt came out of the studio, accompanied by the others of the party, he walked back to the bridge and then held an informal reception lasting ten minutes or more. A boo descriptive of the valley and key of the valley, made out of manzantia, were presented to Mr. Roosevelt. "Here is a good Republican," said a Democrat pre-senting his wife. The president smiled and warmly greeted both. A little baby was brought to him in its father's arms. He shook its tiny hand and with a merry twinkle said, "I have a half doz-

A former member of the Seventh infantry, Mr. McPherson, that was so close to his rough riders in Cuba, was warmly greeted and for a moment the beauties of Yosemite were lost sight of and the stormy days of the charge up the incline of Santiago were recalled and discussed

The president appeared perfectly at home and the people felt that they were greeting an old friend. Cameras and

kodaks were snapping on all sides.

As he crossed the bridge, three cheers were given him. Then he passed under the arch and rode, unaccompanies. under the arch and rode, unaccompanied by any one, down the street of Yosemite village. A small boy said, "Hullo, Teddy." The president stoned his horse and a frown darkened his face. He rode up to the boy, the dignity of the president gone and in its place the face and severity of the father and parent. He gave the youngster a short lecture on manners that he will never forget. Several times he stopped to greet some one or answer a salutation and then disappeared in the pine-clad road that leads down to the camping place for the night. About two miles

place for the night. About two miles below town he was met by a party consisting of Gov. Pardee, Judge Henshaw and Yosemite Commissioners Givens and Henshaw. The meeting was purely informal and much enjoyed by all.

Within the shadows of old El Capitan, lulled by the spirit of Pohono, the Indian name for the Bridal Vell, warmed by a rousing camp fire, President Roosevelt is resting tonight. It has been a hard day for him. Since early morning he has been in the saddle, viewing, admiring some of the grandest scenery in the world. Tomorrow morning he will take the Raymond limited stage at 6 o'clock, lunch at Wawona, and arrive at Raymond in mond limited stage at 6 o'clock, lunch at Wawona, and arrive at Raymond in the evening, where his special train awaits him. For two days and two nights he has been lost to the world and its curious, gaping crowds in the almost trackless wilds of the high Sierras, accompanied by a handful of trusted friends.

Presbyterian General Assemnly.

Los Angeles, Cal., May 18 .- Arrangements for the Presbyterian general as-sembly, which will meet here next Thursday for a two weeks' session, are about completed. About 700 commissioners are enrolled, one-half of whom

A vast army of visitors will come from east of the Mississippi. From the city of Pittsburg alone will come not less than 400, and all the cities of the west will send strong delegations. The attendance promises to be unusually large, and thousands of visitors wh have no connection with the assembly

Many important matters will come before the general assembly. Latest reports show that of the 340 Presbyteries, 220 have voted in favor of cree-revision and consequently the report of revision and consequently the report of the stated cierk on the overtures submitted by the last general assembly is already anticipated and the bare announcement will probably scarcely occasion a ripple on the floor of the assembly on Friday morning.

When the train reached the Bath Beach Capt. Cullen, Sergt. Ryder and Roundsman Nugent, with nine men were there. Capt. Cullon sent half of his men with the sergeant, into the car and told them to arrest those whom they considered the ring leaders and push them through the windows of the cars, where they would be caught by the captain and his other men.

Then followed a fierce battle. Rounds-man Nugent had just seized one man who had been thrust out, when another landed on his back. The fellow began to pummel Nugent's face. He caught the policeman's club and with it struck the roundsman repeatedly. The man had Nugent down and was belaboring him when the captain went to the pohim when the captain went to the po-liceman's aid. When it was over Nu-gent's uniform and hat were ruined and

### THEIR ARDOR

Mayor Quells a Big Riot in Bridgeport, Conn.

HOSE TURNED ON CROWD.

Cause of Trouble Was an Attempt to Run Street Cars With Non-Union Men.

Bridgeport, Conn., May 17.-The ttempt made by the officials of the Connecticut Railway & Light ing company to run their cars with non-union men today resulted in a rio in which at least 31 men were injured. The sheriff says that another such outbreak as occurred today will make the calling out of the state troops inevitable. At the present time it i supposed that the county sheriff will supersede the police in the control of

This morning six trolley cars wer started out on the Barnum and State street lines. There were large crowds around the car sheds at the time the cars were manned by 12 of the 130 men brought to this city by the car company. There was no disturbance for a couple of hours. When the first car, however, had completed its third ound trip and was directly in front of the Wheeler & Wilson factory, where a crowd of at least 300 persons had gathered, a bombardment of stones be-gan. Deputy Sheriffs Hendrie and Plumbe, who were riding on the car, plunged into the crowd to arrest a man whom they had seen throwing a stone. He was seized and with much difficulty dragged 50 feet to the car. The stone thrower was a big fellow and struggled so fiercely that a policeman who was standing near by went to the assistance of the shariffs.

o the assistance of the sheriffs.
Mayor Dennis Mulvahili was seen durrying through the mob. He rushed up to the policeman and ordered him take his hands off the prisoner. He then told the deputy sheriffs that they had better let the man go. During the argument the prisoner dashed away. In the meantime stones were flying in In the meantime stones were flying in a shower and one struck Mayor Mulvahill on the head, bruising it badly. The two sheriffs jumped on the car and told the motorman to proceed to the car sheds, a quater of a mile distant. The bombardment did not abate and the crowds on the streets were so thick that the motorman had to go slowly. The stone throwing soon became so furious that the sheriffs drew their rerious that the sheriffs drew their re olvers and fired five shots in the ai This caused the bombardment to let up a little and the car reached the barns and was run inside. The other five cars operated on the streets received exactly the same treatment as they followed the first car into the

When the last car had passed in the doors there were 4,000 people gathered in a vacant lot opposite, and violence once more broke loose. Bricks, stones and everything that could be threwn were hurled at the barns and anything that belonged to the company in the

At this point Mayor Mulvahill saw that the sergeant and nine policemen who were stationed at the car barns were entirely unable to cope with the mob and he sent for Chief Coffin of the fire department. After a short con-sultation the latter ordered out engine company No. 6 and a line of hose. Su-perintendent Bingham also ordered every man to co-operate with the fire-men, and finally the mob slowly fell back before the water. One of the strike breakers was assisting the fire men in holding the hose, when a wel directed brick hite him on the head and whocked him to the ground, senseless.

When the mob had dispersed the firemen and extra policemen were ordered back to their quarters and the regular detailed force guarded the barns. Officials of the trolley company will not reveal the names of the men injured. I is positively known, however, that not a man of the 12 who were on the six cars escaped injury of some kind. Every one of them as they stood on the platform of their cars, while going into the barns, was seen to be bleeding pro-fusely from the head and face. In addition to the trolley men injured. Read-master Davis of the trolley company was severely injured by a stone which struck him on the head. Sheriffs Hendrie and Plumbe were the principal magnets for the crowd, and each was struck on different parts of the body at least a dozen times. No attempt was made to run cars tonight.

In an interview the sheriff said: "I will have no further interference have 100 special men here tomorrow and have 10 0special men here tomorrow an will do my part to preserve peace and if the mayor or anyone else interferes he will be stopped; if necessary, I will supersede Mayor Mulvahill in author-

#### TENT CATERPILLAR. What an Arboriculturist Has Discove ered in Western Trees.

John P. Brown of Indiana, editor of Arboriculture, is in Salt Lake looking in to forest situation in the west. Mr. Brown has recently been investigating the conditions in the Pike's Peak district, especially that section of the watershed from which Colorado Springs draws its water supply. The aspen thickets about the lakes and reservoirs in that district; he says, have suffered severely from a pest of enterpillars which has practically stripped the trees of foliage. This particular peat Mr. Brown designates as the tent caterpiller, and says that there are millions of eggs on the growth this year which will be batched out and if this pest is not dealt with the trees, so necessary to retain the snew, will ultimately die off. He sounds a cote of warning in this direction pertaining to the watershed from which Sait Lake draws its water supply and suggests that a sharp lookout be kept for these destructive insects before it will become necessary to spend a great deal of money in the removal of them. has recently been investigating the condi-

On Saturday night last another baseball league was formed. It will be known as the Utah State Amateur league, and is composed of three teams. They are: Calder's Park, Provo and Wesslers of Ogden. When the league was formed there was some talk of taking in Fort Douglas but owing to the fact that there were no suitable grounds here for that team, the idea was abandoned. The organization was effected at a meeting between three managers of Provo. Ogien and Salt Lake, who are C. Archie Knowlden, F. E. Wessler and Thomas Gunn, respectively. A schedule has not been formed as yet, but one will be made out as soon as possible. The first game will be played at Provo on Friday afternoon between the Provo team and the Wesslers of Ogden.
